«Working with the best for the best»

We closely work with our meticulously selected leather manufacturer. Following the newest trends, they have been working in different domains for two generations to develop products of modern time. This, by remaining loyal to traditional craftsmanship techniques.

In 2005, they begin with leather production operations. Today, they deliver their products across the world to luxurious retail brands by manufacturing fine leather products for them, such as; briefcases, luggage, backpacks, purses, watch cases,...

Spreading out to a facility of 12000 m² and its experienced staff, our partner works meticulously to ensure customer satisfaction every day. They export their products to 41 countries.

OUR ADVANTAGES

R&D DEPARTMENT

Working closely with our experienced designers, our R&D department helps you to develop new styles and samples before starting the production process.

DESIGN

Offering in-house design services, our team would gladly help you to transform your leather product ideas into reality smoothly. You won't have to work with design offices and productions companies separately, thanks to our in-house designers.

PACKAGING

Within our facilities we also manufacture custom-made cases and boxes for your carefully made leather goods. By using our packaging services, you may choose to lower your costs.

LOGISTICS

You may benefit from our proven expertise to ease your import process.

OUR OPERATION PROCEDURES AND TERMS & CONDITIONS

PRIVACY OF CUSTOMER DESIGN

We will do everything in our power to keep the customer design secret. We ensure that we will not use your designs and will not share them with other customers.

PRODUCT DEVELOPMENT

If you want to modify existing styles, all modifications/adaptations must be specified in detail. If you want to use your own design, we would need technical sketches of your design, logo artwork, color, leather & lining quality, zipper and other accessories information.

RAW MATERIALS

Depending on your request, we can use either our own materials or the materials you provide. The way material is sourced will be a price-altering factor.

SAMPLE-MAKING

Sample production takes from 2 to 4 weeks. Should there be any defect from our part, we will revise the sample free of charge. However, if the customer requests any modification to the sample, he will receive an invoice for the revised sample.

MINIMUM ORDER QUANTITY

Each color/style minimum order quantity is about 75 pieces for the bags, 100 pcs for the small accessories, 50 pcs for the weekender bags. Exceptions could be made depending on the project.

A prepayment of the total price is to be charged prior to the production; and the rest will be paid in full upon shipment. Our prices are «exw» but we could also get you a price quotation for the shipment and this would be reflected on the price.

We highly value the continuity of the business. Therefore, we give great importance to customer service, quality and workmanship. We would neither make false promises nor take on a project we cannot fulfill.

If you provide us with the detailed information of the products you are interested in, we would be happy to assist you.

Best Regards
Royaslan Team
